

HIGH SCHOOL OPPORTUNITIES

Registration is available for High School Classes in H.S. Office or at our school website:
www.wrightstown.K12.wi.us/High

#1000 Credit Make-Up Opportunities

See Mr. Thompson or Mr. Olson for opportunities to work during the summer to turn a failing grade into a passing grade in science, social studies, health, math, or English. Get back on track with earning credits for graduation.

Sessions are offered from 9:00-12:00 and 12:30-3:30

#1300 Summer Agriculture Education

Register for Summer Agriculture Education. See Mr. Pinchart for opportunities to work on summer agricultural experiences.

Strength and Conditioning

This is a physical education class for students interested in achieving their highest level of health-related fitness. Class activity emphasizes improving health-related fitness through resistance and cardiovascular training, while incorporating speed and agility activities. Incorporates D1 curriculum. (Open to Students Currently in Grades 8-11)

#1400 6:00-7:15 a.m.

#1401 7:15-8:30 a.m.

#1402 8:30-9:45 a.m.

Courses offered during the week of August 28-September 1

#1403 AP BIOLOGY

The summer school session for AP Biology is geared towards getting a head start on the curriculum for the upcoming school year. The reason is to give the students a better chance of passing the AP exam at the end of the year by guaranteeing to get through the entire curriculum. The summer session will encompass the first unit which is Biochemistry. The students will learn about the synthesis and breakdown of carbohydrates, proteins, lipids and nucleic acids. They will write their initial AP Biology essay along with completely finishing the first AP Biology Lab which is Enzymatic Catalysis.

11:00-1:00 (Week of August 28-September 1)

#1404 AP CHEMISTRY

The summer session for AP Chemistry is geared towards getting a head start on the curriculum for the upcoming school year. The reason for this head start is to give the students a better chance of passing the AP exam at the end of the year by guaranteeing to get through the entire curriculum. The summer session will encompass the first unit which is Chemical Foundations and Atomic Theory. The students will also perform the first two laboratory activities of the course during this week long session. These labs are: 1.) Statistical Accuracy and Precision and 2.) Gravimetric Analysis

1:00-3:00 (Week of August 28-September 1)
