

**Student and Community Wellness Center
Board of Education
Wrightstown Community School District**

Wrightstown Community School District is committed to the optimal development of every student. The District believes that for students to have the opportunity to achieve personal, academic, developmental, and social success, we need to create positive, safe, and health-promoting learning environments at every level, in every setting, throughout the school year.

The Board of Education values the investment the community has in its school buildings and facilities and recognizes the need for constituents residing within the boundaries of the school district to use school sites and facilities for educational, recreational, and cultural activities.

The Student and Community Wellness Center will be utilized to promote physical fitness and a health-promoting environment for the student body as well as the community.

The District will work cooperatively with individuals and groups interested in the promotion and development of programs using the Wellness Center. It is the responsibility of the Wellness Center Director to establish a schedule for the facility that reflects a priority on the education of the District's children while keeping in mind the needs and desires of the community.

The Wellness Center Director is responsible for maintaining rules and procedures for the effective and efficient use of the Wellness Center. Curriculum and program offerings will be established to meet the needs of the District students as well as the community needs. Rules, regulations, and guidelines will be established and maintained to assure the safe and appropriate use of the facility.

The District does not discriminate in admission to any program or activity, standards and rules of behavior, disciplinary actions or facilities usage on the basis of sex, race, religion, national origin, color, ancestry, creed, pregnancy, marital or parental status, sexual orientation, sexual identification, physical, mental, emotional, or learning disability or handicap.
