

Dear WES Parents,

We need your help with a very important issue regarding the safety of our WES students!

It's nice to see how eager our students are to get to school in the morning, some as early as 7:15! However, if you drop off your children at school in the morning, the earliest you may do so is 7:40 a.m. (7:30 a.m. if your child is eating breakfast at school).

There is NO adult supervision until 7:40 a.m. for children being dropped off by their parents. There is 1 staff person assigned outside at that time but that is for students riding an early bus to school. Additional staff supervision is provided at 7:40 a.m. for walkers, bikers, extra bus routes, and drop-off students.

PLEASE...If you are a parent that drops off your student(s) in the morning before the school day starts, do not do so UNTIL 7:40 A.M.

We realize parent schedules are very busy, but the number of children arriving before 7:40 a.m. without supervision has become an increasing safety issue. Please consider using First Student Bus Company (532-4956)—it's convenient, safe and free! Thank you!
