Special Education Caseload Projections

	Student Physical Count 2024-2025	DPI Full Time Equivalency Factor	Projected DPI Full Time Equivalency Factor	Projected DPI Full Time Equivalency Per Teacher	Projected Openings Based on Full Time Equivalency
<p>The information presented is based on DPI guidelines and the caseload formula. Students are weighted based on severity of need, time allocated for special education resources for each child, and services needed to be successful for each child. The FTE caseload is not equivalent to the actual number of students on a teacher's caseload. A 3.5 FTE factor was used for projecting available seats for open enrollment to allow room for students who move into the district or qualify for services during the school year.</p>
