Dear Wrightstown Elementary School Families,

We are excited to start this school year implementing our Positive Behavior Support Program, which we call our "Tiger Values". Our goal is to improve school-wide student academic, social, and behavioral outcomes through taking active steps in teaching, modeling, and reinforcing appropriate behaviors. We know when positive behavior and quality teaching come together, our students will excel in their learning.

As part of the Tiger Values, we have established clear and consistent expectations for behavior for all areas of our school. We will continue to explicitly teach these expectations and celebrate together through positive reinforcements and school based rewards. The expectation for all student behavior is clear throughout our school. You will be able to ask your child(ren), "What are the Tiger Tools and Expectations in your school?" "How do you use your Tiger Tools?" "What happens when a teacher sees you or your class following the Tiger Tools?"

Our school procedures specifically address behavioral concerns, provide a safer school environment, and give more time for instruction to assist students in meeting expectations. By detailing every expected behavior and teaching it to students in a positive way, we will provide a common language for everyone in our building, including students, teachers, office staff, and paraprofessionals.

We believe that by helping students practice positive behavior, we will build a school community where all students feel connected through positive relationships, while having consistent and clear expectations that foster kindness, resiliency, and continued growth.

We welcome your support with this program at home. Please contact us at school should you have any questions or need more information.

We look forward to having a great school year!
