

Academic Team

Advisors:

Ali Van Remortel

Angela Fischer

The middle-school academic team is made up of 15 students and is open to any 7th or 8th grader! Students will have the option to compete in subjects such as: ELA, Math, Science, History, and Current Events. Students gain knowledge of working together as a team, as well as, some trivia they may not have known before! Students who have a love of trivia and feel they are strong in a certain subject are encouraged to join!

Practices are held during lunch and recess starting in February and going through the end of March. There is one competition at night held in Chilton at the end of March where students compete against 5-6 area middle schools!
