

FFA

Advisor:

Brian Pinchart

***ONLY 8th grade students can participate in FFA.*

Wrightstown FFA is part of the largest national youth organization that helps prepare future generations for the challenges of feeding a growing population. Agriculture is more than planting and harvesting-- it's a science, it's a business and it's an art.

FFA continues to help the next generation rise up to meet those challenges by helping its members to develop their own unique talents and explore their interests in a broad range of career pathways. Future agricultural production specialists, veterinarians, engineers, biologists, chemists, entrepreneurs and leaders are part of FFA.

Wrightstown FFA members can choose from a variety of activities and competitions to enhance their leadership development, academic success and career exploration. National FFA Convention, Wisconsin Agriscience Fair, Career Development Events, Community Projects, Ag Summer Tour/Brewer Trip, Brown County & Wisconsin State Fair and Leadership Conferences are a few examples of events that members may participate in. Wrightstown FFA members have advanced to state and national competitions.

Students interested in the Wrightstown FFA can attend any meeting or can come down to the agriculture room to talk with Mr. Pinchart and/or an FFA member. Meetings are held throughout the year during both lunch periods.
